April 18, 2006

It has been brought to my attention that a chapter of the Jaycees is being organized in the City of San Luis Obispo. I am glad to see this organizing effort is underway and heartily endorse both the organization and the developing local chapter.

Communities where Jaycees are active have benefited immensely by their energy and leadership. A chapter founded here will help our community in many ways while providing leadership training opportunities for our young people.

I am familiar with the many valuable services the organization renders to communities like ours. I fully support the goals of the Jaycees and look forward to the development of a strong local chapter.

Wishing you all success.

Sincerely,

A handwritten signature in cursive script that reads "David F. Romero".
